

Lake Wingra Watershed A New Management Approach

**Water Resources Management Workshop
Spring/Summer/Fall 1999**

**Institute for Environmental Studies
70 Science Hall
550 North Park Street
University of Wisconsin-Madison
Madison, Wisconsin 53706**

An Equal Educational Opportunity Institution (Title VI, Title IX)

In conformance with applicable federal and state law and with university policy, the University of Wisconsin-Madison does not discriminate on the basis of age, race, color religion, sex, national origin or ancestry, sexual orientation, arrest or conviction record, marital status, handicap, political affiliation, or veteran's status with regard to treatment of employees and students in its educational programs or activities. Inquiries concerning this policy may be directed to appropriate campus admitting or employing units or to the Affirmative Action and Compliance Office, 175 Bascom Hall, 608/263-2378. Disabled persons should contact the McBurney Resource Center, 905 University Avenue, 608/263-2741 (voice/TDD), for information and referral.

The Water Resources Management Workshop is a regular part of the curriculum of the Water Resources Management Graduate Program at the University of Wisconsin-Madison. The workshop involves an interdisciplinary team of faculty and graduate students in the analysis of a contemporary water resources problem.

The conclusions and recommendations are those of the graduate student authors and do not necessarily reflect the official views or policies of any of the cooperating agencies or organizations, nor does the mention of any trade names, commercial products, or companies constitute endorsement or recommendation for use.

Table of Contents

Preface	i
Acknowledgments	iii
Executive Summary	v
Chapter One – Introduction	1
Chapter Two – Synthesis of Technical Research	3
Introduction	3
Hydrology	5
Physical Setting	5
Historical Changes to Watershed Uplands	7
Historical Changes to the Lake and Wetlands	7
Previous Work	8
Water Budgets	8
Groundwater	9
Stormwater	10
Significance of Hydrologic Research	11
Lake Chemistry and Sediments	11
In-Lake Nutrient Cycling	13
Phosphorus	13
Nitrogen	15
Carbon	15
Chloride	16
Trace Elements	17
Nutrient and Sediment Inputs	17
Significance of Phosphorus Inputs	19
Vegetation	20
Historic Lake Wingra Vegetation	20
Changes to Vegetation	21
The Future of Lake Wingra Vegetation	24
Continuing Threats	25
Opportunities for Improvements	26
Invertebrates, Wildlife, and Fish	26
Historic Fauna in and around Lake Wingra	26
Invertebrates	28
Fish	29
Current Threats to Fish, Wildlife and Invertebrates	33
Conclusions and Recommendations	33
Chapter Three – A Brief History of Management	35
Introduction	35
Early Efforts: Controlling Floods and Wetlands	36
Priority Shift: Water Quality Legislation	36

Table of Contents

Recent Watershed, Water Quality, and Stormwater Management Plans	38
Federal Clean Water Action Plan	38
Wisconsin DNR Lower Rock River Basin Water Quality Plan	38
Wisconsin DNR Integrated Ecosystem Management Project	39
Wisconsin DNR Yahara-Monona Priority Watershed Project	39
Wisconsin DNR Non-point Source Redesign Program	40
Dane County	41
City of Madison	41
Future Challenges	42

Chapter Four – Lake and Watershed Management 45

Introduction	45
Watershed and Stormwater Management	46
Storm Sewer System	47
Stormwater Treatment Ponds	47
Filter Fabrics	48
Polyacrylamide	48
Underground Treatment Devices	48
Non-point Source Pollution	49
Diffuse Infiltration and Disconnection of Impervious Surfaces	49
Bioretention and Rain Gardens	50
Golf Course Stormwater Management	51
Street Sweeping	52
Road Salt Reduction	53
Lawn Runoff Management	53
Living Machines	54
Modeling and Analysis of Stormwater Characteristics	55
In-Lake Management	57
Introduction	57
In-Lake Control of Nutrients and Sediment	57
Dredging	57
Alum Treatment	58
Biotic Community Management	58
Fish Stocking	58
Wetland Management	59
Water Control Structures	60
Native Aquatic Vegetation Restoration	60
Aquatic Plant Harvesting	61
Algae Control Using Straw Bales	61
Boat Regulations and Zebra Mussels	63
Monitoring for Management Purposes	63
Lake Wingra Monitoring	64
Inflowing Surface Water Monitoring	65
Monroe Street Retention Pond	65
Todd Drive Station	65
Wingra Creek Monitoring	66
Springflow Monitoring	66
Citizen Monitoring	67
Conclusion/Recommendations	68

Chapter Five – Stakeholders	71
Introduction	71
Current Management and Research Activities in the Lake	
Wingra Watershed	73
Runoff and Erosion Control	73
Research and Planning	73
Engineering, Inspection, and Permitting	74
Stormwater Treatment Ponds	75
Street Sweeping	75
Road Salting	75
Yard Waste Composting	76
In-Lake Management and Research	76
Fisheries Biology	77
Shallow Lakes Management	77
Aquatic Plant Harvesting	77
Research	78
Commissions and Councils	78
Dane County Lakes and Watershed Commission	78
Dane County Regional Planning Commission	78
Madison Metropolitan Sewerage District (MMSD)	78
City Commission on the Environment	79
County Level Commissions and Councils	79
Parks and Open Spaces	79
Madison City Parks Division	79
Dane County Parks Department	80
University of Wisconsin-Arboretum	80
Public and Environmental Health	81
Citizen Involvement in the Wingra Watershed	82
Organizational Activities	82
City of Madison Department of Planning and	
Development	82
Dane County Education and Outreach Coordinators	82
University of Wisconsin–Extension – Education and	
Outreach	83
Lake Wingra Watershed City Alderpersons	83
Friends of Lake Wingra	83
Neighborhood Associations	83
Lake Wingra Watershed Residents	84
Educational Institutions	84
Current Opportunities for Public Participation in the Lake	
Wingra Watershed	84
Planning and Program Review	84
Volunteer Opportunities	86
Outreach Resources	86
Stakeholder Analysis	87
Current Stakeholders	87
Management Gaps and Overlaps: Recommendations	88
Conclusion	91

Chapter Six – Outreach Recommendations	93
Introduction	93
Foundations for Outreach	94
1. Clear Vision, Goals, and Objectives	94
2. Leadership and Initiative	94
3. Funding and Resources	94
4. Relationships	94
5. Planning	95
6. Action-Based Education	95
7. Membership	95
Goals and Objectives for Outreach	95
Outreach Planning	98
Target Audience	98
Specific Objectives	99
Messages	99
Media Formats and Channels	99
Evaluation	99
Purpose of Evaluation	100
Internal and External Constraints	101
Evaluation Techniques	101
Collecting Evidence	102
FOLW Evaluation	102
Outreach Materials	102
Slide Presentation	102
Webpage	104
Bicycle Tour	104
Stories	104
Checklist for Outreach	105
Lessons Learned by Outreach Experts	106
The Future of Outreach	106
 Chapter Seven – A Stormwater Utility for Madison	 107
Introduction	107
Background	108
What is a Stormwater Utility?	108
How Common are Stormwater Utilities?	108
What Do Stormwater Utilities Do?	109
How are Stormwater Utilities Structured?	110
Stormwater Utility Trends and Lessons	112
A Stormwater Utility for Madison	113
Incentives for Progressive Stormwater Management Practices ..	114
Non-Residential Incentives	114
Residential Incentives	114
Small Grants Program	115
Information Gathering and Accessibility	115
Recommended Structure for a Madison	
Stormwater Utility	116
Stormwater Utility Board	116
Watershed Coordinator	117
Political Process of Stormwater Utility Implementation	117
Conclusion	119

Appendix	121
Appendix 1 - Stormwater Data	121
Appendix 2 - Lake Wingra Watershed Spacial Data Repositories	122
Appendix 3 - Phosphorus Study	124
Appendix 4 - SLAMM Data	128
Appendix 5 - Stakeholder Contact Table	132
Appendix 6 - Lake Wingra Watershed Resident Survey	142
Appendix 7 - Examples of U.S. Stormwater Utilities	161
Appendix 8 - Stormwater Utility White Paper	164
